

● BESPOKE DASHBOARDS · FOR UK SMALL BUSINESSES

Run the business. Live the life.

A custom dashboard that handles the daily grind — **built around how your business actually works**. Not a template. Not a SaaS. Yours.

● THE GRIND

Sound familiar?

- 01 **Closing at 8, still working at 10.** Reconciling till receipts at the kitchen table, knowing tomorrow starts at 6.
- 02 **Four places, zero agreement.** Takings in the till, bookings in the inbox, stock in a notebook — and none of the numbers match.
- 03 **Sundays lost to reports.** A weekend gone every month-end, pulling figures together for the accountant.

● HOW IT WORKS

Four steps. No black box.

- WEEK 1
We listen first.
We watch your real week — till, inbox, notes — before proposing a thing.
- WEEK 2
We write it down.
A plain-English spec and a fixed price. You sign off before a line is written.
- WEEKS 3-4
We build it. You watch.
Progress every Friday — not one big reveal at the end.
- MONTH 2 ONWARDS
Then we stick around.
A flat monthly fee covers iteration as you grow. No "phase 2 project".

* Typical shape — exact weeks & scope are tailored to you and confirmed in writing at step two.

● WHAT WE ACTUALLY DO

Three things. Done well.

- 01 **Bespoke.** We map your week, then build the screen that fits it — not the other way round. No templates.
- 02 **Unified.** Every number that matters on one live screen — takings, bookings, stock and tasks, out of four files into one place.
- 03 **Ongoing.** We stay on after launch. Your business changes; the dashboard changes with it. Never a build-and-disappear.

● COMPARED HONESTLY

Built for you. Not for everyone.

- **Fit.** Built around how you already work — not "every business", which means yours, kind of.
- **One place.** Every number live, on one screen — not five files and an inbox that never agree.
- **Pricing.** Fixed-price build plus a flat monthly fee — no per-seat creep every time you hire.
- **Ownership.** You own the data, we manage it. A real UK company behind it, not a freelancer.

HOW WE PRICE
FIXED PRICE

We don't publish a rate card — **every build is different**. After a free discovery call you get a fixed-price quote on one page: plain English, **no hourly billing, no surprise line items**. If the scope shifts, we quote the difference in writing first.
